IOWA STATE UNIVERSITY

Dear Iowa State University Graduates and Guests:

Congratulations to all of the Spring 2022 graduates of Iowa State University!

Welcome to Iowa State University's Spring 2022 Commencement. Congratulations to all of the graduates, and thank you to everyone who played a role in their successful journey through Iowa State.

Commencement is an opportunity to reflect on what you have learned and to celebrate your achievements. Every single graduate has been a valued and important member of the Iowa State community. We are a better university because of the diverse, positive contributions you have made during your time here. We thank you for the many ways you have enhanced our campus – both inside and outside the classroom, and we wish you the very best as you begin your next chapter.

Iowa State is now in its 164th year as the state's only land-grant university. We are proud to be one of the most student-centered public research institutions in the country. Through our distinct mission of education, research, and extension, Iowa State is preparing students for fulfilling careers and lives and for meeting the needs of society. Iowa State graduates will become the professionals, entrepreneurs, and leaders of our state, nation, and world; and their future accomplishments will reflect the exceptional quality of this university. As you graduate today, we thank you for being a part of this wonderful tradition and for supporting Iowa State's legacy of excellence.

I hope you enjoy today's commencement ceremony, and that you will continue to be connected with Iowa State University. We wish you great success and happiness.

Sincerely,

A handwritten signature in black ink that reads "Wendy Wintersteen". The signature is written in a cursive, flowing style.

THE OFFICIAL UNIVERSITY MACE

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania, designed and crafted the mace and presidential chain of office used in Iowa State University’s formal academic ceremonies.

The complementary pair of bronze and silver ceremonial items are on display in the Alumni Center as part of University Museums’ Art on Campus collection.

The mace symbolizes the authority of the university president. The chief faculty marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the ceremony.

Created in bronze, silver, and tiger maple, Iowa State University’s mace is an interpretation of the campanile. The bronze headpiece features two campus landmarks – the Campanile and Christian Petersen’s Fountain of the Four Seasons—and a silver presidential seal inscribed with “Iowa State University–Science With Practice.” The tiger maple staff bears bronze plaques inscribed with the names of all previous Iowa State presidents and their years of service. The mace is 60 inches long and weighs 14 pounds.

THE PRESIDENTIAL CHAIN OF OFFICE

The presidential chain of office symbolizes the rich history and traditions of Iowa State University. It features an image of the Campanile on the front. On the back is a representation of Beardshear Hall, home to the president’s office. The columns of Beardshear form the shoulder epaulets, inscribed with “leadership” and “service.” The Campanile-inspired links in the presidential collar contain the words “engagement,” “learning,” “discovery,” and “access.” The reverse sides of the bronze sections feature low bas reliefs of corn.

The mace and first presidential chain of office (“Monile Praesidis Maximus”) was commissioned by University Museums and the ISU Alumni Association in 2008. The second presidential chain (“Monile Praesidis Secundum”), a proportionally smaller version commissioned by University Museums in 2018, was supported by an anonymous donor and Carole A. and Roger E. Custer.

ACADEMIC REGALIA

In May 2008, Iowa State University debuted custom-designed doctorate regalia. The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's hood. The fabric is cardinal red gabardine with

black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and university tradition, adorns the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel completes the official regalia.

Academic gowns have been part of the university experience since the twelfth century and the advent of the first European universities. Because these early schools were connected to great cathedrals, the black gown of the schoolmasters, or

scholastics, emulated the somber dignity of the clergy and signified a life devoted to learning. In addition, the ample materials of the gown served to keep the scholars warm in the drafty environment of the medieval university.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's

gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

Agriculture and Life Sciences – *Maize*

Business – *Nugget*

Design – *Brown*

Engineering – *Orange*

Human Sciences – *Maroon*

Liberal Arts and Sciences

Bachelor of Arts – *White*

Bachelor of Liberal Studies – *White*

Bachelor of Music – *Pink*

Bachelor of Science – *Golden Yellow*

Veterinary Medicine – *Gray*

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by master's and doctorate degree recipients. Hoods were added to the official academic attire of master's degree recipients in May 2018. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore, the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline.

HOODING CEREMONY, DOCTOR OF PHILOSOPHY

The Doctor of Philosophy is the university's highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base. Those who receive doctorates have demonstrated that they are truly experts in their

fields whose research has contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title "Doctor of Philosophy." During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

SPECIAL RECOGNITION, ADVANCED DEGREES

Candidates for graduation for the Master's or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

- § Research Excellence Award
- †† Teaching Excellence Award

SPECIAL RECOGNITION, UNDERGRADUATE DEGREES

Candidates for undergraduate degrees may be recognized for graduating "With Distinction" and/or graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally; however, the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees. Each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade point average of 3.90 or higher; magna cum laude (with great distinction) have a grade point average of 3.70 to 3.89; or cum laude (with distinction) have a grade point average 3.50 to 3.69. Grade point averages are based on a 4.00 scale. In addition to the notation in

the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum. Those graduating from the University Honors Program have designed and completed an individualized program of study, including an independent Honors Research Project, while earning a required minimum grade point average or better.

Students graduating with special recognition will wear a cord and/or medallion and will be noted in this program as follows:

- *** Summa Cum Laude – with highest distinction (cardinal and gold cord)
- ** Magna Cum Laude – with great distinction (gold cord)
- * Cum Laude – with distinction (cardinal cord)
- † Honors Program (medallion)

COLLEGE OF VETERINARY MEDICINE COMMENCEMENT SPEAKER

Heather Loenser, Veterinarian, Suveto's Vice-President of Professional Development, Culture and Wellbeing

Dr. Heather Loenser never knew what she wanted to be when she grew up. Even while obtaining her Bachelors in Animal Science, she augmented her studies on-stage as an actor with ISU Theatre, volunteering

at the ISU Wildlife Care Clinic, and connecting with prospective students as a Cyclone Aide. As an extroverted, adrenaline junky, Dr. Heather Loenser stood out in the class of 2003 at Iowa State University College of Veterinary Medicine, where she was thrilled to play the part of spokeswoman in her group projects, much to the

relief of her introverted classmates. Fast-forward many years later, Dr. Loenser continued exploring an array of opportunities in the profession including juggling her

work on the front lines of emergency medicine as an ER veterinarian with her passion for educating veterinary teams and pet owners as a FRANK communication coach at Colorado State University, a consultant for several pharmaceutical companies, and a regular on national television segments the TODAY Show, Fox and Friends, Dr. Oz and more. Most recently, she served as the American Animal Hospital Association's Chief Medical Officer, where she revolutionized AAHA's Guidelines, championed AAHA's culture and well-being initiatives, and created new educational content for the profession. She has turned her focus to empowering veterinary teams to take ownership of the profession by serving as the Vice-President of Professional Development, Culture and Wellbeing with Suveto. She's Canadian-born, Iowa-raised and New Jersey-strong. To stay as grounded as possible, she loves low (slow) runs with her dog, scuba diving, and playing with her kids.

GRADUATE COLLEGE COMMENCEMENT SPEAKER

Qijing Zhang, Clarence Hartley Covault Distinguished Professor and Associate Dean for Research and Graduate Studies in the College of Veterinary Medicine; and Professor of Veterinary Microbiology and Preventive Medicine

Dr. Qijing Zhang is Clarence Hartley Covault Distinguished Professor and Associate Dean for Research and Graduate Studies in the College of Veterinary Medicine at Iowa State University. Dr. Zhang received a BVSc degree from Shandong Agricultural University, a MS degree in Veterinary Microbiology from the National Institute of Veterinary Biologics (China), a PhD degree in Immunobiology from Iowa State University, and postdoc training from University of Missouri-Columbia. Dr. Zhang was an Assistant Professor at the Ohio State University and has been a faculty member at Iowa State University since 2003.

Dr. Zhang's research focuses on microbiology and antimicrobial resistance (AMR). His work has resulted in discovery of emerging AMR threats, identification of new pathogenic variants, elucidation of disease pathogenesis, transmission and ecology, and development of preventive vaccines. His research has contributed significantly to the control of zoonotic pathogens and to improvement of food safety, animal health, and public health. Dr. Zhang's work has also provided critically needed and science-based information for policymaking regarding antibiotic

usage in animal agriculture. Dr. Zhang has published 175 peer-reviewed papers and given 140 invited speeches nationally and internationally. Dr. Zhang's research program has been continuously supported by competitive grants from various sources and has trained a number of graduate students and postdoctoral fellows as well as undergraduate and professional students.

Dr. Zhang has served on a number of editorial boards, grant review panels, and various committees for professional organizations. He chaired the Animal Health Division of American Society for Microbiology and led the USDA Regional Research Committee on Enteric Diseases of Food Animals. He was also a council member for the Conference for Research Workers in Animal Diseases and later presided over the conference. At Iowa State University, Dr. Zhang has led the effort in growing research and graduate education in the College of Veterinary Medicine for the past 10 years.

Dr. Zhang was a holder of Frank Ramsey Endowed Chair in Veterinary Medicine and a recipient of Pfizer Award for Research Excellence. He is an elected fellow of American Academy of Microbiology and American Association for the Advancement of Science. He was also recognized as an Honorary Diplomat of American College of Veterinary Microbiologists.

GRADUATE COLLEGE STUDENT MARSHAL

COMMENCEMENT SPEAKER AND HONORARY DEGREE RECIPIENT, DOCTOR OF SCIENCE

Subra Suresh, President and Distinguished University Professor at Nanyang Technological University, Singapore

Professor Subra Suresh is the 4th President and Distinguished University Professor at Nanyang Technological University (NTU), Singapore, since January 2018.

Professor Suresh served as Director of the US National Science Foundation (NSF), a position to which he was nominated by the President of the United States, and unanimously confirmed by the US Senate (2010-2013). He has been the President of Carnegie Mellon University (2013 – 2017); Dean of Engineering (2007-2010) and Vannevar Bush Professor at Massachusetts Institute of Technology (MIT); and Professor of Engineering at Brown University (1983-1993). He graduated from high school

at the age of 15 and received his engineering doctorate degree from MIT in two years. He received his master's degree from Iowa State in 1979.

Professor Suresh's research has focused on the properties of engineered and biological materials and their implications for human diseases and technologies across a broad spectrum of industries and applications. He has authored three books, more than 300 research articles and 30 patent applications, and has co-founded two technology start-ups. The Innovation Corps (I-Corps) programme which he created while serving as NSF Director in 2011 is now regarded as one of the most impactful initiatives in translating scientific discoveries into commercial practice.

Professor Suresh is amongst a rare group of researchers elected to all three branches of the US National Academies: National Academy of Sciences, National Academy of Engineering, and National Academy of Medicine. He has also been elected to the American Academy of Arts and Sciences, the National Academy of Inventors, and to leading science and/or engineering academies in China, France, Germany, India, Spain, Singapore, and Sweden. He has been awarded 18 honorary doctorate degrees from institutions around the world. His alma mater, Indian Institute of Technology Madras, awarded him an honorary doctorate degree during its Golden Jubilee Convocation in 2013 where he was the commencement speaker.

Professor Suresh is the recipient of some of the most prestigious honors for advancing science, technology, education, research, and innovation through his scholarship and leadership: the 2020 American Society of Mechanical Engineers Medal; an Honorary Fellowship of St. Hugh's College at Oxford University in 2018; the 2015 Industrial Research Institute Medal; the 2013 Benjamin Franklin Medal in Mechanical Engineering and Materials Science; the 2012 Timoshenko Medal and the 2011 Nadai Medal of the American Society of Mechanical Engineers; the 2011 Padma Shri award, one of the highest civilian honors from the President of India on Republic Day; the 2007 Gold Medal of the Federation of European Materials Societies; and the 1995 Presidential Young Investigator Award from the White House. He received the Distinguished Alumnus Award and the Marston Medal from Iowa State University in 2011 and 2008, respectively.

SENIOR CLASS COUNCIL

The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2021-2022 Senior Class Council is comprised of students who are dedicated to recognizing seniors for their many achievements. The Senior Class Council plans a number of programs for seniors including both Fall and Spring Senior Weeks where students enjoy food on campus; the Senior Package, a gift set that included commemorative Iowa State items; and the Senior Send-off, a year-end event for seniors at the ISU Alumni Center to celebrate seniors' transitions to being alumni! The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors. To learn more about the Iowa State University Alumni Association, go to www.isualum.org.

THE HISTORY OF "THE BELLS OF IOWA STATE"

Iowa State University Library
Special Collections Department

James C. Wilson (1900-1995) was a member of Iowa State's English faculty from 1928 to 1931. He had to resign due to his lack of a Ph.D., and prior to his departure, he submitted a college song candidate for a song contest sponsored by the Iowa State Club of Chicago.

Jim and his wife, Alice, moved to Chicago where as he notes, "We (in addition to their two babies) had \$212 in cash from my last paycheck, our five-year-old Chevrolet, and the tent." He won first place with "The Bells of Iowa State," and the family was able to purchase a small cottage on Lake Michigan.

"When I wrote 'The Bells of Iowa State,' I thought then that it had much more depth and emotion than your basic football fight song," Wilson said. "Its continuing popularity leaves me very pleased, not so much because it's my own song, but because it has had such a good effect on those who have been touched by it." (The Iowa Stater, June 1983)
