

FALL COMMENCEMENT

FRIDAY, DECEMBER 17, 2021
SATURDAY, DECEMBER 18, 2021

IOWA STATE UNIVERSITY

Dear Iowa State University Graduates and Guests:

Congratulations to all of the Fall 2021 graduates of Iowa State University!

Welcome to Iowa State University's Fall 2021 Commencement. Congratulations to all of the graduates, and thank you to everyone who played a role in their successful journey through Iowa State.

Commencement is an opportunity to reflect on what you have learned and to celebrate your achievements. Every single graduate has been a valued and important member of the Iowa State community. We are a better university because of the diverse, positive contributions you have made during your time here. We thank you for the many ways you have enhanced our campus – both inside and outside the classroom, and we wish you the very best as you begin your next chapter.

Iowa State is now in its 163rd year as the state's only land-grant university. We are proud to be one of the most student-centered public research institutions in the country. Through our distinct mission of education, research, and extension, Iowa State is preparing students for fulfilling careers and lives and for meeting the needs of society. Iowa State graduates will become the professionals, entrepreneurs, and leaders of our state, nation, and world; and their future accomplishments will reflect the exceptional quality of this university. As you graduate today, we thank you for being a part of this wonderful tradition and for supporting Iowa State's legacy of excellence.

I hope you enjoy today's commencement ceremony, and that you will continue to be connected with Iowa State University. We wish you great success and happiness.

Sincerely,

A handwritten signature in black ink that reads "Wendy Wintersteen". The signature is written in a cursive, flowing style.

*Wendy Wintersteen
President of the University*

THE OFFICIAL UNIVERSITY MACE

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania, designed and crafted the mace and presidential chain of office used in Iowa State University’s formal academic ceremonies.

The complementary pair of bronze and silver ceremonial items are on display in the Alumni Center as part of University Museums’ Art on Campus collection.

The mace symbolizes the authority of the university president. The chief faculty marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the ceremony.

Created in bronze, silver, and tiger maple, Iowa State University’s mace is an interpretation of the campanile. The bronze headpiece features two campus landmarks – the Campanile and Christian Petersen’s Fountain of the Four Seasons—and a silver presidential seal inscribed with “Iowa State University–Science With Practice.” The tiger maple staff bears bronze plaques inscribed with the names of all previous Iowa State presidents and their years of service. The mace is 60 inches long and weighs 14 pounds.

THE PRESIDENTIAL CHAIN OF OFFICE

The presidential chain of office symbolizes the rich history and traditions of Iowa State University. It features an image of the Campanile on the front. On the back is a representation of Beardshear Hall, home to the president’s office. The columns of Beardshear form the shoulder epaulets, inscribed with “leadership” and “service.” The Campanile-inspired links in the presidential collar contain the words “engagement,” “learning,” “discovery,” and “access.” The reverse sides of the bronze sections feature low bas reliefs of corn.

The mace and first presidential chain of office (“Monile Praesidis Maximus”) was commissioned by University Museums and the ISU Alumni Association in 2008. The second presidential chain (“Monile Praesidis Secundum”), a proportionally smaller version commissioned by University Museums in 2018, was supported by an anonymous donor and Carole A. and Roger E. Custer.

ACADEMIC REGALIA

In May 2008, Iowa State University debuted custom-designed doctorate regalia. The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's hood. The fabric is cardinal red gabardine with

black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and university tradition, adorns the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel completes the official regalia.

Academic gowns have been part of the university experience since the twelfth century and the advent of the first European universities. Because these early schools were connected to great cathedrals, the black gown of the schoolmasters, or

scholastics, emulated the somber dignity of the clergy and signified a life devoted to learning. In addition, the ample materials of the gown served to keep the scholars warm in the drafty environment of the medieval university.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's

gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

Agriculture and Life Sciences – *Maize*

Business – *Nugget*

Design – *Brown*

Engineering – *Orange*

Human Sciences – *Maroon*

Liberal Arts and Sciences

Bachelor of Arts – *White*

Bachelor of Liberal Studies – *White*

Bachelor of Music – *Pink*

Bachelor of Science – *Golden Yellow*

Veterinary Medicine – *Gray*

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by master's and doctorate degree recipients. Hoods were added to the official academic attire of master's degree recipients in May 2018. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore, the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline.

HOODING CEREMONY, DOCTOR OF PHILOSOPHY

The Doctor of Philosophy is the university's highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base. Those who receive doctorates have demonstrated that they are truly experts in their

fields whose research has contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title "Doctor of Philosophy." During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

SPECIAL RECOGNITION, ADVANCED DEGREES

Candidates for graduation for the Master's or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

- § Research Excellence Award
- †† Teaching Excellence Award

SPECIAL RECOGNITION, UNDERGRADUATE DEGREES

Candidates for undergraduate degrees may be recognized for graduating "With Distinction" and/or graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally; however, the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees. Each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade point average of 3.90 or higher; magna cum laude (with great distinction) have a grade point average of 3.70 to 3.89; or cum laude (with distinction) have a grade point average 3.50 to 3.69. Grade point averages are based on a 4.00 scale. In addition to the notation in

the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum. Those graduating from the University Honors Program have designed and completed an individualized program of study, including an independent Honors Research Project, while earning a required minimum grade point average or better.

Students graduating with special recognition will wear a cord and/or medallion and will be noted in this program as follows:

- *** Summa Cum Laude – with highest distinction (cardinal and gold cord)
- ** Magna Cum Laude – with great distinction (gold cord)
- * Cum Laude – with distinction (cardinal cord)
- † Honors Program (medallion)

GRADUATE COLLEGE COMMENCEMENT SPEAKER

Lisa Schulte Moore, Professor of Natural Resource Ecology and Management and Associate Director of the Bioeconomy Institute, Iowa State University; and 2021 Ecological Society of America Fellow; and 2021 MacArthur Fellow

Dr. Lisa Schulte Moore conducts research and teaches in the areas of agriculture, ecology, forestry, and human-landscape interactions. Her research addresses

the strategic integration of perennials into agricultural landscapes to support new markets and to meet societal goals for healthy soils, clean water, abundant wildlife and inspiring recreational opportunities. She engages in transdisciplinary science collaborations toward meeting the grand societal challenge of sustainably providing food and energy to the 10 billion people on a livable planet.

Dr. Schulte Moore is co-founder of the Science-based Trials of Rowcrops Integrated with Prairie Strips (STRIPS) project, which developed the prairie strips conservation practice. She is also lead developer of People in Ecosystems/Watershed Integration (PEWI), a simple web-based educational game designed to help people understand human impacts on the environment and improve the management of natural resources; and directs C-Change, an Iowa State University of Science and Technology Presidential Interdisciplinary Research Initiative and United States Department of Agriculture National Institute for Food and Agriculture Sustainable Agricultural Systems project.

Dr. Schulte Moore has published more than 100 scientific and educational articles. Her honors include the Iowa State University Early Career Award in Teaching (2007), Teaching Award of Merit from the North American Colleges and Teachers of Agriculture (2007), Stanford University Leopold Leadership Fellow (2013), Kavli Frontiers of Science Fellow (2014), University of Minnesota Duluth Academy of Science and Engineering Inductee (2017), Des Moines Business Record/Ivy College of Business innovationENTREPRENEUR Award (2020), Ecological Society of America Fellow (2021), and MacArthur Fellow (2021). Along with her colleagues on the STRIPS team, she received the Soil and Water Conservation Society's Conservation Innovation Award in 2020 for their development of prairie strips. Her research has been covered by the BBC, National Public Radio, New York Times, and The Washington Post, among other news outlets. In 2021, Dr. Schulte Moore was selected to serve on the agriculture workgroup of Governor Reynolds' Carbon Sequestration Task Force.

Dr. Schulte Moore earned a B.S. in biology from the University of Wisconsin-Eau Claire, an M.S. in biology from the University of Minnesota-Duluth, a Ph.D. in forestry from the University of Wisconsin-Madison, and served as a post-doctoral associate with the U.S. Forest Service. She joined Iowa State University of Science and Technology in 2003. She lives in Ames, Iowa, with her husband and two sons. They also spend time at their family farm near Strum, Wisconsin.

GRADUATE COLLEGE STUDENT MARSHAL

Guliz Tokadli

Hometown: Istanbul, Turkey

Majors: Industrial Engineering and Human Computer Interaction

Guliz Tokadli's academic record in coursework and research is outstanding. Guliz's research blended engineering and psychology to optimize the performance of teams of humans and automated systems, with applications for air travel, outer-space exploration and video games.

She co-authored 13 research publications and was recognized by the Graduate College with the Research Excellence Award in 2019.

Guliz led the Turkish Student Association and was an officer of the Student Association of Astronautics and Aeronautics Engineering. She's begun an exciting career in industry focused on automated-driving vehicles.

HONORARY DEGREE RECIPIENT, DOCTOR OF SCIENCE

H. Allen Myers, President and Founder of Ag Leader Technology, Inc.

Herbert Allen (Al) Myers is the president and founder of Ag Leader Technology, Inc. Headquartered in Ames, Iowa, Ag Leader is the largest privately-owned supplier of precision farming technology in the world,

with products and tools to improve decision-making, efficiency and address agronomic challenges. Myers holds 16 U.S. patents and two foreign patents.

From a young age growing up on a crop and livestock farm near Watseka, Illinois, Myers was interested in the mechanical aspects of agriculture. He completed four years of vocational agriculture

in high school with the intention of becoming a farmer, but a teacher convinced him to consider a career path in engineering.

Myers attended the University of Illinois and earned a bachelor's and master's degree in agricultural engineering. He then went to work for Sundstrand Corp. in the high-pressure hydraulics division, advancing from project engineer to controls group supervisor to systems engineer to applications engineering manager to principle engineer.

Among his many accomplishments during his time at Sundstrand include development of a swing control to rotate the upper part of large machines like cranes and excavators. He also designed the first load sensing and power sensing controls for use on open circuit, heavy duty hydraulic pumps.

Myers was always interested in inventing and product development, and he dreamed about starting his own company to build and market his ideas. For six years, he developed, tested and refined his first invention, an on-the-go yield monitor for a combine grain harvester. Once he determined it was ready for commercialization, he left Sauer Sundstrand in 1992 (now known as Danfoss), and began selling the yield monitors out of his home as Ag Leader Technology.

Today, Ag Leader Technology, Inc. produces more than two-thirds of the grain yield measuring sensors made in the world, and has a catalog of seven product lines of equipment and services. In 2021, the company released a high-speed (up to 12 mph) planting system that was co-developed with Williamsburg, Iowa-based Kinze Manufacturing, Inc. Ag Leader has nearly 400 employees worldwide with offices in The Netherlands, Australia and Brazil; and an expansive domestic and international dealer network.

COMMENCEMENT SPEAKER

Cara Heiden, Retired Co-President of Wells Fargo Home Mortgage

Cara Heiden is a retired co-president of Wells Fargo Home Mortgage, a Wells Fargo company and the nation's largest provider of residential mortgages. She focused on leading WFHM to continually achieve

outstanding financial goals and nationally promoting the benefits of homeownership. She rallied employees to fulfill the company's promise to customers and clients: to work together to reach customer's personal and financial goals through homeownership, and being the client's number one partner to help build their business.

Asked to testify before the U.S. House of Representatives and address numerous prestigious forums on responsible lending and servicing, Heiden became a national advocate of making sure consumers are treated fairly throughout

the mortgage industry.

Heiden was frequently recognized in U.S. Banker magazine's "25 Most Powerful Women in Banking." Before Heiden's 30 year career with Wells Fargo, she was a certified public accountant for three years with the accounting firm of Ernst & Young.

She devotes time to giving back to the community. A member since 1994 and past chair of the Ivy College of Business Dean's Executive Advisory Council, Heiden has also served on numerous boards and capital campaigns such as chair of the board and 2007 annual campaign chair for the United Way of Central Iowa, chair of the board of Iowa State University Foundation, co-chair of Greater Des Moines Habitat for Humanity's capital campaign, chair of the Community Foundation of Greater Des Moines, and tri-chair of Capital Crossroads, a regional economic development and quality of life multi-year strategic plan, and many more.

Cara is an Iowa State University Alumni; she was awarded a Bachelor of Science in Industrial Administration in 1978.

UNDERGRADUATE COMMENCEMENT VOCALIST & F. WENDELL MILLER DISTINGUISHED ARTIST IN RESIDENCE

Simon Estes

Simon Estes is an internationally acclaimed bass-baritone who has performed in the world's major opera houses and in special performances for U.S. presidents and international dignitaries such as Boris Yeltsin, Yassar Arafat, Yitzhak Rabin, Nelson Mandela, and Archbishop Desmond Tutu. Since 2000, he has been a faculty member at Iowa State University, serving as the F. Wendell

Miller Distinguished Artist-in-Residence with the Department of Music and Theatre, sharing his incredible talents and musical knowledge with students and at numerous activities and events.

Estes rose from humble beginnings in Centerville, Iowa, the son of a coal miner and grandson of a slave, to become one of the world's most accomplished opera singers, paving the way for other African Americans in the classical world. He transferred from Centerville Junior College to the University of Iowa in 1957 and was there until he was accepted in the Juilliard School of Music in 1963. Estes has honorary doctorates from numerous colleges and universities, including one from Iowa State University.

In 1965 Estes made his operatic debut in *Aida* at the Deutsche Opera in Berlin. Among his more than 100 lead operatic roles have been the title role in *The*

Flying Dutchman at Bayreuth, being the first male African American to sing a major role on stage there; the role of Porgy in the Metropolitan Opera's first production of Gershwin's *Porgy and Bess*; and the role of Amonasro in *Aida* with Leontyne Price as *Aida* in her "farewell performance" at the Met.

Estes is also internationally known for his humanitarian efforts for children. He established the Simon Estes Educational Foundation, which has awarded more than three million dollars in merit-based college scholarships, and the Simon Estes International Foundation for Children, which provides support for children's health and educational needs. In 2006, he led a group of six Iowa State music faculty members to South Africa to bring music instruction to the students of the Estes school in the Cape Town area.

He has performed numerous benefit concerts to help combat HIV/AIDS and eliminate malaria in Africa. Estes was recently recognized by the United Nations Foundation for personally raising more than half a million dollars for the "Nothing But Nets" campaign, which provides funds for education and bed nets to protect people from the spread of malaria throughout the world.

Estes has taught at the Juilliard School of Music, Harvard University and Boston University. Among his many awards are the Distinguished Iowa Citizen Award, the Iowan Award, and the prestigious Alumni Award of Iowa State University.

SENIOR CLASS COUNCIL

The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2021-2022 Senior Class Council is comprised of students who are dedicated to recognizing seniors for their many achievements.

The Senior Class Council plans a number of programs for seniors including both Fall and Spring Senior Weeks where students enjoy food on campus; the Senior Package,

a gift set that included commemorative Iowa State items; and the Senior Send-off, a year-end event for seniors at the ISU Alumni Center to celebrate seniors' transitions to being alumni! The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors.

For more information on SCC and SALC programs, please visit www.isusalc.org.

IOWA STATE UNIVERSITY ALUMNI ASSOCIATION

Cyclones Everywhere

Iowa State University alumni are more than 250,000 strong. And they are everywhere ... in all 50 states and 152 countries – a family united by the Cardinal & Gold. No matter if your adventure takes you far from the heartland or if you put roots down right here in Iowa, if you're a Cyclone, you're never really far from home.

Keeping graduates connected to Iowa State and each other is the No. 1 goal of the ISU Alumni Association. Through reunions, events, social media, and other communications, the Alumni Association is your one-stop-shop to re-engage with your university.

Here are six ways to continue your Iowa State adventure through the Alumni Association:

1. Connect with Cyclones everywhere through our local affiliate groups in more than 30 locations.
2. The ISU Alumni Center is your forever home. Stop by the Center (429 Alumni Ln.) on your way to central campus; better yet, park at the Center and ride CyRide!
3. Take advantage of the Association's career resources, like resume reviews, webinars, blogs, and job-hunting tips.
4. Download the Iowa State Alumni App from the App Store or Google Play.
5. Stay connected with Cyclones everywhere through the online Alumni Directory – and don't forget to update your own information when you move or change jobs.
6. Become a New Grad Member of the ISU Alumni Association and receive discounts, invites to events, and more (www.isualum.org/newgrad).

Ring - ing in the hearts of all who bring thee love and loy - al - ty;
Dear Al - ma Ma - ter, make our spir - its great,
True, and val - iant like the bells of I - o - wa State.

THE HISTORY OF "THE BELLS OF IOWA STATE"

Iowa State University Library
Special Collections Department

James C. Wilson (1900-1995) was a member of Iowa State's English faculty from 1928 to 1931. He had to resign due to his lack of a Ph.D., and prior to his departure, he submitted a college song candidate for a song contest sponsored by the Iowa State Club of Chicago.

Jim and his wife, Alice, moved to Chicago where as he notes, "We (in addition to their two babies) had \$212 in cash from my last paycheck, our five-year-old Chevrolet, and the tent." He won first place with "The Bells of Iowa State," and the family was able to purchase a small cottage on Lake Michigan.

"When I wrote 'The Bells of Iowa State,' I thought then that it had much more depth and emotion than your basic football fight song," Wilson said. "Its continuing popularity leaves me very pleased, not so much because it's my own song, but because it has had such a good effect on those who have been touched by it." (The Iowa Stater, June 1983)
