

## *Dear Iowa State University Graduates and Guests:*

*Congratulations to all of the Spring 2015 graduates of Iowa State University!*

*We are very proud of you for the successful completion of your academic programs, and we are pleased to present you with a degree from Iowa State University recognizing this outstanding achievement. We also congratulate and thank everyone who has played a role in the graduates' successful journey through this university, and we are delighted that many of you are here for this ceremony to share in their recognition and celebration.*

*We have enjoyed having you as students at Iowa State, and we thank you for the many ways you have contributed to our university and community. I wish you the very best as you embark on the next part of your life, and I encourage you to continue your association with Iowa State as part of our worldwide alumni family.*

*Iowa State University is now in its 157th year as one of the nation's outstanding land-grant universities. We are very proud of the role this university has played in preparing the future leaders of our state, nation and world, and in meeting the needs of our society through excellence in education, research and outreach. As you graduate today, you are now a part of this great tradition, and we look forward to the many contributions you will make.*

*I hope you enjoy today's commencement ceremony. We wish you all continued success!*

*Sincerely,*

A handwritten signature in black ink that reads "Steven Leath". The signature is written in a cursive, flowing style.

*Steven Leath  
President of the University*

## THE OFFICIAL UNIVERSITY MACE

---

The Iowa State University mace symbolizes the authority of the university president. The lead faculty marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the commencement ceremony.

In medieval times, the mace was a studded, clublike weapon, made of iron. It was capable of breaking armor, and was associated with the protection of kings in France and England.

In the 13th century, it was used for civil purposes and processions. Eventually it became a symbol for academic institutions, an emblem of order and authority in the pageantry.

Created in bronze, silver and tiger maple, the Iowa State University mace incorporates important campus icons such as the campanile located on central campus and the Fountain of Four Seasons, located on the north side of the Memorial Union and features likenesses of four Native American women. The sculptures were created in 1941 by Christian Petersen, sculptor-in-residence from 1934-1955.

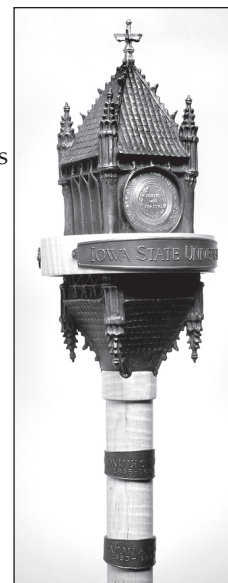

The mace's bronze headpiece is an interpretation of the campanile. It includes a silver presidential seal and reflects in a disc representative of the Fountain of the Four Seasons. The words "Iowa State University – Science With Practice" are inscribed on

the edge of the disc. Under the disc is a shortened version or reflection of the campanile headpiece.

The tiger maple staff bears 14 bronze plaques inscribed with the names of all previous Iowa State presidents, their years of service, and a laurel leaf symbolizing the attainment of graduation.

At the staff's base is an unfolding bronze leaf symbolizing the beginning of a new era for graduating students. The overall height of the University mace is 60 inches, and it weighs 14 pounds.

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania designed and crafted the Iowa State University mace.

Private funds from the ISU Alumni Association's Circle of Former Presidents, Chairs, and Executive Directors, the Stanton Carillon Foundation, and the University Museums made the design and purchase of the Iowa State University mace possible.

## THE PRESIDENTIAL CHAIN OF OFFICE

---

The presidential chain of office symbolizes the rich history and traditions of Iowa State University and is worn by the president at all commencement ceremonies.

It was first worn by President Gregory Geoffroy during the Spring 2008 commencement ceremonies to mark the end of Iowa State University's year-long sesquicentennial celebration.

Created by sculptor Jeanne Stevens-Sollman—the same artist who created Iowa State's mace—the presidential chain of office complements the mace. The two

pieces were commissioned by University Museums and the ISU Alumni Association and are part of University Museums' Art on Campus collection.

The front of the presidential chain of office features an image of the campanile, and Beardshear Hall's east portico (the campus home of the president) is on the back. The shoulder epaulets are the columns of Beardshear and contain the words Leadership and Service. The campanile links in the presidential chain of office contain the words Engagement, Learning, Discovery and Access. The reverse sides of the bronze sections have low bas reliefs of corn. Most pieces in the necklace are bronze. The seal in the center of the campanile and the links in the necklace are sterling silver.

Both the presidential chain of office and the mace are housed in the alumni center and are used at each commencement ceremony.

## ACADEMIC REGALIA

In May 2008, as part of its sesquicentennial celebration, Iowa State University debuted custom-designed doctorate regalia.

The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's

hood. The fabric is cardinal red gabardine with black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and University tradition, adorns each of the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel

completes the official regalia.

The ceremony as well as the academic costume at commencement symbolize the record of academic achievement of the various individuals taking part in commencement exercises. The use of academic costume reaches back to medieval times and the beginnings of the famed old universities of Europe and England. Gowns (long, full robes) and cloaks with hoods were common garb. The unheated buildings frequented by medieval scholars certainly were an important factor in the choice of clothing.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The Code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be a color pertaining to the discipline. The color of the commencement gown varies in other countries. In America, black is typically the color of choice for bachelor's and master's degrees.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books as suggested in the old poem, "The Ballad of the Cap," first published in 1564. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

- Agriculture and Life Sciences – Maize
- Business – Nugget
- Design – Brown
- Engineering – Orange
- Human Sciences – Maroon
- Liberal Arts and Sciences
  - Bachelor of Arts – White
  - Bachelor of Liberal Studies – White
  - Bachelor of Music – Pink
  - Bachelor of Science – Golden Yellow
- Veterinary Medicine – Gray

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by doctorate degree recipients. Exceptions are made for honorary degree recipients and other officials of the ceremony. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline. For example, dark blue represents Philosophy and all hoods used in conferring the Doctor of Philosophy degree at Iowa State University are of dark blue edging.

# HOODING CEREMONY, DOCTOR OF PHILOSOPHY

---

The Doctor of Philosophy is the university's highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base.

Those who receive doctorates have demonstrated that they are truly experts in their fields whose

research has already contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title "Doctor of Philosophy."

During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

## ACADEMIC TITLES

---

The following provides a brief description for the academic titles that appear in this program followed by a list of symbols for each title. Where appropriate, a symbol will be displayed behind the person's name.

Distinguished Professor denotes those faculty members who have been recognized for having attained outstanding national and international reputations within their professional disciplines.

University Professor denotes those faculty members who have been recognized for having made outstanding contributions to the quality of education at Iowa State University.

An endowed chair or professorship provides special recognition to the faculty member to whom the title is awarded. It is held for a specific term, and during that time, endowment earnings are used by the university to supplement departmental support of the faculty member's scholarship and responsibilities in teaching, research, outreach, and service. These chairholders specialize in areas of study identified by the donors who created the endowments.

- ‡ Distinguished Professor
- ‡‡ University Professor
- ◇ Endowed Chair
- ◇◇ Endowed Professorship

## SPECIAL RECOGNITION, ADVANCED DEGREES

---

Candidates for graduation for the Master's or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

- § Research Excellence Award
- †† Teaching Excellence Award

## SPECIAL RECOGNITION, UNDERGRADUATE DEGREES

---

Candidates for undergraduate degrees may be recognized for graduating "With Distinction" and/or graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally, however the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees. Each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade point average of 3.90 or higher; magna cum laude (with great distinction) have a grade point average of 3.70 to 3.89; or cum laude (with distinction) have a grade point average 3.50 to 3.69. Grade point averages are based on a 4.0 scale. In addition to the notation in the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum. Those graduating from the University Honors Program have designed and completed an individualized program of study, including an independent Honors Research Project, while earning a required minimum grade point average or better.

Students graduating with special recognition will wear a cord and/or medallion and be noted in this program as follows:

- \* \* \* Summa Cum Laude - with highest distinction (cardinal and gold cord)
- \* \* Magna Cum Laude - with great distinction (gold cord)
- \* Cum Laude - with distinction (cardinal cord)
- † Honors Program (medallion)

## ADDITIONAL RECOGNITION, UNDERGRADUATE DEGREES

---

The George Washington Carver Scholarship and Academy is designed for high achieving multicultural students and supports their growth and academic success through specialized curricula and programming. The George Washington Carver Outstanding Achievement Award is granted to those scholars who have demonstrated involvement in a combination of activities such as outstanding community service and successful internships and who are graduating with a 3.5 grade point average or better. These scholars are wearing green stoles.

Iowa State University's Cardinal Key Honor Society, formed in 1926, recognizes students who have achieved the cardinal virtues of leadership, service, scholarship, and character in the university community. Undergraduates must be of junior or senior standing, have earned a minimum cumulative grade point average of 3.0 and be in the top 15% of their academic class. Membership is limited to no more than ½ of 1% of the senior class, and 1/3 of 1% of the junior class. These students are wearing two red cords intertwined with a single gold cord.

## IOWA STATE UNIVERSITY TRADITIONS

---

The first swans on Lake LaVerne, Lancelot and Elaine, were a gift from the 1935 VEISHEA Central Committee. From that day on, there has been a pair of swans on Lake LaVerne.

When Iowa State's young football team beat Northwestern University 36 to 0 in 1895, an article in the Chicago Tribune said, "Northwestern might as well have tried to play football with an Iowa cyclone as with the Iowa team it met yesterday." Thus, the "Cyclones" were born. Cy the Cardinal became Iowa State's mascot in 1954.

It is said if you step on the bronze zodiac relief on the floor of the Memorial Union's Gold Star Hall, you will flunk your next test.

In 2003, Iowa State revived a 60-year-old tradition: the Official ISU Ring. Students and alumni worked with the ISU Alumni Association and University Book Store to design a ring that symbolically captures the uniqueness of Iowa State. Rings may only be worn by alumni or by students who have achieved junior or senior status. Rings are officially presented at an annual ring ceremony.

The tradition of "campaniling" states that a student officially becomes an Iowa Stater when he or she is kissed under the university's campanile at the stroke of midnight.

The Fountain of the Four Seasons by artist-in-residence, Christian Petersen (Danish-American, 1885-1961), is located in front of the Memorial Union and was a gift from the 1937 VEISHEA Committee. In 1942, Christian Petersen added four sculptures to represent the four seasons. The east sculpture represents spring with the planting of corn; south - summer, sheltering a young plant; west - fall, holding the harvest; and north - winter, nursing a child. Legend has it that good luck will come to you if you throw a coin in the fountain.

## IOWA STATE UNIVERSITY POINTS OF PRIDE

---

The world's first electronic digital computer was developed at Iowa State University by math and physics professor John V. Atanasoff and engineering graduate student Clifford Berry in the late 1930's. Their invention, the ABC computer, has been called the most important technological innovation of the 20th century.

Iowa State's faculty includes a Nobel Prize winner in chemistry and members of the National Academy of Engineering and the National Academy of Sciences.

Iowa State's faculty members are recognized for their scholarly efforts. They serve as editors and on editorial and advisory boards of national and international academic professional journals.

Iowa State is a member of the prestigious Association of American Universities that has a membership of only 62 major research universities in the United States and Canada.

Iowa State is one of the top three U.S. universities in the development of patentable biotechnology.

Iowa State students have a reputation for winning national and international awards. The win contests for apparel design, NASA food technology, news writing for print and broadcast, computer software, vocal music, music composition, and many more.

With more than 100 majors, 1700 faculty and 800 clubs and organizations, Iowa State has built a reputation for almost unlimited academic and social opportunities in a personal and welcoming environment.

Every state and more than 100 countries are represented in Iowa State's student body. Iowa State's 600 works of art on campus make its public art collection the largest of any university in the nation.

## GRADUATE COLLEGE COMMENCEMENT SPEAKER

---

### **Dr. Susan J. Lamont, C.F. Curtiss Distinguished Professor of Agriculture & Life Sciences**

Susan J. Lamont has been a faculty member in the department of Animal Science at Iowa State University for over 30 years, and is currently

a C.F. Curtiss Distinguished Professor of Agriculture and Life Sciences. She leads an active research program with an emphasis on determining the molecular genetic control of important biological traits.

Dr. Lamont has extensive global research

collaborations and has published over 175 peer-reviewed journal papers and invited book chapters.

She has won numerous awards from Iowa State University and scientific organizations, recognizing her contributions in research and service.

Dr. Lamont is actively engaged in graduate education, teaching three graduate courses, directing a USDA graduate training grant, and mentoring PhD students in her lab. She also has filled administrative posts, including serving as the chair of her department, chair of the interdepartmental Immunobiology program, assistant director of research for her college, and she is currently the Equity Advisor for her college.

# COLLEGE OF VETERINARY MEDICINE COMMENCEMENT SPEAKER

## Dr. James DeLano, co-founder of Bishop Ranch Veterinary Center & Urgent Care

Dr. James DeLano is a co-founder of Bishop Ranch Veterinary Center and Urgent Care and a proud graduate of the Iowa State University Veterinary Medicine Class of 1987. He credits ISU

with laying the foundation for his successes both in business and in life.

As a child in Chicago, Jim discovered his passion for veterinary medicine at an early age as he spent time shadowing his neighbor, Dr. Theodore Lafeber, at his practice. Arriving in Iowa fresh off high school graduation in

the “big city” Jim was ready to share his knowledge; little did he know he had a long way to go.

Over the next seven years, Jim learned more than he could have ever hoped for. The community constantly amazed him with their caring and honesty. His fellow students did their best to keep a city boy from serious injury, or death-by-cow, as he fumbled his way through. Today Jim will tell you he would not have made it without the incredible generosity and kindness of his peers, professors, and other community members.

In addition to keeping him alive and sane, ISU literally made it possible for Jim to make it through by providing numerous modes of financial assistance. He was rarely turned down as he created work-study opportunities for himself;

pig pen cleaner, pathology floor cleaner, organic chemistry research assistant and more. Faced with the enormous cost of travel to the annual SCAVMA convention, he and a friend founded the SCAVMA Scamper Fundraiser, a 5K/10K run, to help his class get there. Thirty two years later, the Scamper is still a community favorite each year.

Upon graduating in 1987, he headed west with his wife, Julie, to California and worked for 18 months in a high volume, low cost practice. This was followed by a six month stint at the Peninsula Humane Society just prior to opening a small animal practice in 1989. That practice, founded with a partner, began as a leasehold improvement and has since relocated twice to its current operating site in a 14,000sf building on 3 acres. Bishop Ranch Veterinary Center is now a veterinary hospital that cares for more than 12,000 families and 17,000 pets each year. The practice currently supports 17 veterinarians and 70 support staff. In what he believes is a part of his adopted Iowan spirit, Dr. DeLano’s proudest achievement is that 14 DVMS have joined the practice and never left.

When asked about his success as a business owner Dr. DeLano says, “clearly, the success I’ve had in my professional life is directly related to my time at Iowa State. I recognize that many who came before me laid the groundwork for me to be successful which is why it feels so natural for me to pay it forward.”

In 2011, Jim was honored to join the faculty at UC Davis as an Assistant Clinical Professor - Volunteer. There he teaches business and exam room communication skills in hope of helping the next generation find even more success.

## UNDERGRADUATE COMMENCEMENT SPEAKER

---

### **Bruce L. Rastetter, President, Board of Regents, State of Iowa**

**B**ruce L. Rastetter is a lifelong Iowan committed to make a difference in our state. He is a successful entrepreneur of agriculture and energy-related companies, and is currently president of the Board of Regents, State of Iowa dedicated to improving the quality and affordability of higher education in Iowa.

Mr. Rastetter learned the value of hard work and education growing up on his 300-acre family farm outside of Iowa Falls, later attending Ellsworth Community College and the University of Iowa. After graduating, he returned to his roots to start his own feed management business. The success of the business led him to additional start-ups — a building construction entity and a swine production operation. He later merged the three businesses into Heartland Pork Enterprises, and he guided Heartland's acquisition by Christensen Farms to become the 4th largest U.S. pork producer.

A true entrepreneur, Mr. Rastetter co-founded Hawkeye Energy Holdings in 2003, which grew to become one of America's largest pure-play ethanol producers. He served as CEO until 2011.

Today, Mr. Rastetter serves as CEO of the Summit Group, a leader in agribusiness, production agriculture, renewable energy, and international development. The organization includes Summit Farms, headquartered in northern Iowa. The operation includes extensive grain and meat production while maintaining a strong environmental commitment with thousands of acres of conservation land.

Mr. Rastetter is an active philanthropist and community leader, supporting efforts focused on education and entrepreneurship. He was appointed to the Board of Regents in 2011, was elected president in 2013, and re-elected president in 2014. He also serves on the board of directors for Hawkeye Energy Holdings, Iowa Premium Beef, and Cultivation Corridor.

## F. WENDELL MILLER DISTINGUISHED ARTIST IN RESIDENCE

### Simon Estes

**S**imon Estes is an internationally acclaimed bass-baritone who has performed in the world's major opera houses and in special performances for U.S. presidents and international dignitaries such as Boris Yeltsin, Yassar Arafat, Yitzhak Rabin, Nelson Mandela, and Archbishop Desmond Tutu. Since 2000, he has been a faculty member at Iowa State University, serving as the F. Wendell

Miller Distinguished Artist-in-Residence with the Department of Music and Theatre, sharing his incredible talents and musical knowledge with students and at numerous activities and events.

Estes rose from humble beginnings in Centerville, Iowa, the son of a coal miner and grandson of a slave, to become one of the world's most accomplished opera singers, paving the way for other African Americans in the classical world. He transferred from Centerville Junior College to the University of Iowa in 1957 and was there until he was accepted in the Juilliard School of Music in 1963. Estes has honorary doctorates from numerous colleges and universities, including one from Iowa State University.

In 1965 Estes made his operatic debut in *Aida* at the Deutsche Opera in Berlin. Among his more than 100 lead operatic roles have been the title role in *The Flying Dutchman* at Bayreuth, being the first male African American to sing a major role on stage there; the role of Porgy in the Metropolitan Opera's first production of Gershwin's *Porgy and Bess*; and the role of Amonasro in *Aida* with Leontyne Price as Aida in her "farewell performance" at the Met.

Estes is also internationally known for his humanitarian efforts for children. He established the Simon Estes Educational Foundation, which has awarded more than three million dollars in merit-based college scholarships, and the Simon Estes International Foundation for Children, which provides support for children's health and educational needs. In 2006, he led a group of six Iowa State music faculty members to South Africa to bring music instruction to the students of the Estes school in the Cape Town area. He has performed numerous benefit concerts to help combat HIV/AIDS and eliminate malaria in Africa.

Estes has taught at the Juilliard School of Music, Harvard University, Boston University, and currently is a professor at Iowa State University and at Wartburg College. Among his many awards are the Distinguished Iowa Citizen Award, the Iowan Award, and the prestigious Alumni Award of Iowa State University.

# IOWA STATE UNIVERSITY SENIOR CLASS COUNCIL

---

The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2014-2015 Senior Class Council is comprised of 12 students who are dedicated to recognizing seniors for their many achievements.

This year's Senior Class Council has planned a number of programs for seniors including both Fall and Spring Senior Weeks, where seniors enjoy special tours and free food on campus; the Senior Package, a gift set that included commemorative Iowa State items; Grad Breakfast, a chance for seniors to relax and enjoy a meal served by ISU faculty and staff; Real Life Answers, a conference for seniors to prepare them for life after graduation,

and the Senior Send-off, a year-end event for seniors at the ISU Alumni Center to celebrate seniors' transitions to being alumni! The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors.

Finally, Senior Class Council always invites you and your families to return to the Iowa State Alumni Center following the Commencement Ceremony today as you are all now Alumni of Iowa State University!

For more information on SCC and SALC programs, please visit [www.isusalc.org](http://www.isusalc.org).
