THE OFFICIAL UNIVERSITY MACE

The Iowa State University mace symbolizes the authority of the university president. The lead faculty marshal carries it at the head of the academic procession and, by placing it on its stand, signals the beginning of the commencement ceremony.

In medieval times, the mace was a studded, clublike weapon, made of iron. It was capable of breaking armor, and was associated with the protection of kings in France and England.

In the 13th century, it was used for civil purposes and processions. Eventually it became a symbol for academic institutions, an emblem of order and authority in the pageantry.

Created in bronze, silver and tiger maple, the Iowa State University mace incorporates important campus icons such as the campanile located on central campus and the Fountain of Four Seasons, located on the north side of the Memorial Union and features likenesses of four Native American women. The sculptures were

created in 1941 by Christian Petersen, sculptor-in-residence from 1934-1955.

The mace's bronze headpiece is an interpretation of the campanile. It includes a silver presidential seal and reflects in a disc representative of the Fountain of the Four Seasons. The words "Iowa State University – Science With Practice" are inscribed on the edge of the disc. Under the disc is a shortened version or reflection of the campanile headpiece.

The tiger maple staff bears 14 bronze plaques inscribed with the names of all previous Iowa State presidents, their years of service, and a laurel leaf symbolizing the attainment of graduation.

At the staff's base is an unfolding bronze leaf symbolizing the beginning of a new era for graduating students. The overall height of the University mace is 60 inches, and it weighs 14 pounds.

Sculptor Jeanne L. Stevens-Sollman of Bellefonte, Pennsylvania designed and crafted the Iowa State University mace.

Private funds from the ISU Alumni Association's Circle of Former Presidents, Chairs, and Executive Directors, the Stanton Carillon Foundation, and the University Museums made the design and purchase of the Iowa State University mace possible.

THE PRESIDENTIAL CHAIN OF OFFICE

The presidential chain of office symbolizes the rich history and traditions of Iowa State University and is worn by the president at all commencement ceremonies.

It was first worn by President Gregory Geoffroy during the Spring 2008 commencement ceremonies to mark the end of Iowa State University's year-long sesquicentennial celebration.

Created by sculptor Jeanne Stevens-Sollman—the same artist who created Iowa State's mace—the presidential chain of office complements the mace. The two pieces were commissioned by University Museums and the ISU Alumni Association and are part of University Museums' Art on Campus collection.

The front of the presidential chain of office features an image of the campanile, and Beardshear Hall's east portico (the campus home of the president) is on the back. The shoulder epaulets are the columns of Beardshear and contain the words Leadership and Service. The campanile links in the presidential chain of office contain the words Engagement, Learning, Discovery and Access. The reverse sides of the bronze sections have low bas reliefs of corn. Most pieces in the necklace are bronze. The seal in the center of the campanile and the links in the necklace are sterling silver.

Both the presidential chain of office and the mace are housed in the alumni center and are used at each commencement ceremony.

ACADEMIC REGALIA

In May 2008, as part of its sesquicentennial celebration, Iowa State University debuted custom-designed doctorate regalia.

The special commencement doctorate gowns were created with emblems and colors to reflect Iowa State's tradition and to complement Iowa State's

hood. The fabric is cardinal red gabardine with black velvet panels and chevrons edged with gold cording. The Campanile, a beloved symbol and University tradition, adorns each of the two front velvet panels. An eight-sided black velvet tam with a gold silk tassel

completes the official regalia.

The ceremony as well as the academic costume at commencement symbolize the record of academic achievement of the various individuals taking part in commencement exercises. The use of academic costume reaches back to medieval times and the beginnings of the famed old universities of Europe and England. Gowns (long, full robes) and cloaks with hoods were common garb. The unheated buildings frequented by medieval scholars certainly were an important factor in the choice of clothing.

A confusing array of caps, gowns, and hoods emerged from the centuries in Great Britain and from early years of higher education in the United States. American institutions recognized the need for a standard code and the great majority of academic costumes now worn in the United States are in accordance with the general provisions of the Intercollegiate Code of 1895. This code was slightly revised in 1932 and again in 1959. Under this code, the bachelor's gown has pointed sleeves; the master's gown has oblong sleeves with an arc at the bottom; and the doctor's gown has bell-shaped sleeves.

The Code dictates that bachelor's and master's gowns are untrimmed. However, the doctor's gown is faced down the front with velvet and has three bars of velvet across the sleeves. The facing and bars may be black or may be a color pertaining to the discipline. The color of the commencement gown varies in other countries. In America, black is typically the color of choice for bachelor's and master's degrees.

The square shape of the scholar's cap or mortarboard is thought to denote the stability of scholars and their books as suggested in the old poem, "The Ballad of the Cap," first published in 1564. Candidates for advanced degrees wear black tassels. The following is a list of tassel colors for baccalaureate degree candidates:

- Agriculture and Life Sciences – Maize
- Business – Drab
- Design – Brown
- Engineering – Orange
- Human Sciences – Maroon
- Liberal Arts and Sciences
 - Bachelor of Arts – White
 - Bachelor of Liberal Studies – White
 - Bachelor of Music – Pink
 - Bachelor of Science – Golden Yellow
- Veterinary Medicine – Gray

The hood gives color to the academic costume while its length indicates the wearer's academic degree. At Iowa State, hoods are worn by doctorate degree recipients. Exceptions are made for honorary degree recipients and other officials of the ceremony. In general, hoods are made of a wide panel of black cloth, matching the gown and are lined with satin in the official academic colors of the institution awarding the degree.

Iowa State University's colors are cardinal and gold, therefore the top half of the lining is gold and the lower part is cardinal. The colors used in the edging of hoods and tassels are associated with the discipline. For example, dark blue represents Philosophy and all hoods used in conferring the Doctor of Philosophy degree at Iowa State University are of dark blue edging.

HOODING CEREMONY, DOCTOR OF PHILOSOPHY

The Doctor of Philosophy is the university's highest academic degree, awarded only to those who have successfully completed an intensive and demanding course of study whose primary focus is on learning to conduct original research.

The final stage of the program is the preparation and defense of a dissertation that describes the outcome of a major research project. To prepare for that project, the student must have gained expertise and skills in a particular discipline and must have thoroughly explored its existing knowledge base.

Those who receive doctorates have demonstrated

that they are truly experts in their fields whose research has already contributed significantly to human knowledge.

The hooding ceremony symbolizes their admission to the exclusive ranks of those who have earned the respect associated with the title "Doctor of Philosophy."

During the hooding ceremony, the degree recipients are escorted and hooded by their major professors who have worked with them throughout their study for the doctoral degree. The hoods will connect the graduate with a family of scholars throughout history and from all parts of the world.

SPECIAL RECOGNITION, ADVANCED DEGREES

Candidates for graduation for the Master's or Ph.D. may be recognized with the Teaching Excellence Award or the Research Excellence Award.

The Teaching Excellence Award recognizes those who provided outstanding contributions in teaching undergraduate students while working toward a graduate degree.

The Research Excellence Award recognizes those who with outstanding research accomplishments in a graduate program.

Honorees for both awards wear cardinal and gold honor cords and are noted in this program as follows:

- § Research Excellence Award
- †† Teaching Excellence Award

SPECIAL RECOGNITION, UNDERGRADUATE DEGREES

Candidates for undergraduate degrees may be recognized for graduating "With Distinction" or for graduating in the Honors Program. Levels of special academic achievement are indicated in the commencement program by Latin phrases, also known as Latin honors. This system is recognized internationally, however the requirements vary among institutions. In the United States, Latin honors are most often awarded to those earning undergraduate degrees and each academic institution sets its own standards and requirements for each honor.

At Iowa State University, candidates for graduation with distinction must have completed 60 semester credits of coursework at ISU at the time they graduate, including a minimum of 50 graded credits. Those graduating summa cum laude (with highest distinction) have earned a grade-point average of 3.90 or higher; magna cum laude (with great distinction) have a grade-point average of 3.70 to 3.89; or cum laude (with distinction) have a grade-point average 3.50 to 3.69. Grade-point averages are based on a 4.0 scale. In addition to the notation

in the commencement program, this recognition appears on the official transcript and diploma.

The University Honors Program is an individually planned program of study designed to provide greater depth and breadth of scholarship than the regular curriculum. Those graduating from the University Honors Program have designed and completed an individualized program of study, including an independent Honors Research Project, while earning a required minimum grade point average or better.

Students graduating with special recognition will wear cords and be noted in this program as follows:

- * * * Summa Cum Laude - with highest distinction (cardinal and gold cords)
- * * Magna Cum Laude - with great distinction (gold cords)
- * Cum Laude - with distinction (cardinal cords)
- † Honors Program (medallion)

ACADEMIC TITLES

The following provides a brief description for the academic titles that appear in this program followed by a list of symbols for each title. Where appropriate, a symbol will be displayed behind the person's name.

Distinguished Professor denotes those faculty members who have been recognized for having attained outstanding national and international reputations within their professional disciplines.

University Professor denotes those faculty members who have been recognized for having made outstanding contributions to the quality of education at Iowa State University.

An endowed chair or professorship provides special recognition to the faculty member to whom the title is awarded. It is held for a specific term, and during that time, endowment earnings are used by the university to supplement departmental support of the faculty member's scholarship and responsibilities in teaching, research, outreach, and service. These chairholders specialize in areas of study identified by the donors who created the endowments.

IOWA STATE UNIVERSITY TRADITIONS

The first swans on Lake LaVerne, Lancelot and Elaine, were a gift from the 1935 VEISHEA Central Committee. From that day on, there has been a pair of swans on Lake LaVerne.

When Iowa State's young football team beat mighty Northwestern University 36 to 0 in 1895, an article in the Chicago Tribune said, "Northwestern might as well have tried to play football with an Iowa cyclone as with the Iowa team it met yesterday." Thus, the "Cyclones" were born. Cy the Cardinal became Iowa State's mascot in 1954.

It is said if you step on the bronze zodiac relief on the floor of the Memorial Union's Gold Star Hall, you will flunk your next test.

VEISHEA, an all-university spring open house first organized in 1922, is among the nation's largest university student-managed festivals. The festival got its name from the first letters of Iowa State's first colleges: Veterinary Medicine, Engineering, Industrial Science, Home Economics, and Agriculture. Two of VEISHEA's long-standing traditions are individual cherry pies and the musical production "Stars Over VEISHEA."

In 2003, Iowa State revived a 60-year-old tradition: the Official ISU Ring. Students and alumni worked with the ISU Alumni Association and University Book Store to design a ring that symbolically captures the uniqueness of Iowa State. Rings may only be worn by alumni or by students who have achieved junior or senior status. Rings are officially presented at an annual ring ceremony.

The tradition of "campaniling" states that a student officially becomes an Iowa Stater when he or she is kissed under the university's campanile at the stroke of midnight.

The Fountain of the Four Seasons by artist-in-residence, Christian Petersen (Danish-American, 1885-1961), is located in front of the Memorial Union and was a gift from the 1937 VEISHEA Committee. In 1942, Christian Petersen added four sculptures to represent the four seasons. The east sculpture represents spring with the planting of corn; south - summer, sheltering a young plant; west - fall, holding the harvest; and north - winter, nursing a child. Legend has it that good luck will come to you if you throw a coin in the fountain.

GRADUATE COLLEGE COMMENCEMENT SPEAKER

Labh Hira

Dr. Labh Hira was fourth dean of Iowa State University's College of Business, serving from 2001 to 2012. He was also the inaugural holder of the Raisbeck Endowed Deanship. He had announced plans to step down as dean and return to the faculty effective July 1, 2012, but he stepped down early to take over as Interim President of the Iowa State University Foundation in March at the request of ISU President Steven Leath.

He also holds the rank of professor of accounting.

Dr. Hira received B.S. and M.S. degrees from Punjab Agricultural University, India; and the Ph.D. from the University of Missouri, Columbia. He joined the Iowa State faculty in 1982, and he also served as chair of the Departments of Accounting and Finance, associate dean and senior associate dean. As dean, he led a period of significant growth and transition for the college, marked by two important milestones: completion of the college's first stand-alone facility, the \$25 million Gerdin Business Building, which opened in 2004; and creation of the first Ph.D. program, which started in fall 2009. The Ph.D. program represented the final step in making the college a comprehensive business program.

He worked diligently to improve support for the college's faculty, students, and programs through

"Campaign Iowa State: With Pride and Purpose," which ended in 2011 and generated nearly \$48 million for the college. Highlights of the campaign included a gift from David and Ellen Raisbeck to create the Raisbeck Endowed Deanship in the College of Business, an increase in scholarship funds from \$149,000 to \$470,000, and a more than five-fold increase in the number of named faculty positions, to 27.

Dr. Hira co-chaired the recent presidential search committee that culminated in the naming of Dr. Leath, and he chaired or co-chaired search committees for the current deans of the Colleges of Agriculture and Life Sciences, and Veterinary Medicine. He has led numerous other university committees and has served on several review committees for the Association to Advance Collegiate Schools of Business.

Dr. Hira specializes in the taxation of retirement and insurance products with financial accounting being his teaching focus. He is the author of numerous journal articles and four book chapters, and he has served on the editorial board of two national journals.

Dr. Hira and his wife, Tahira, professor of personal finance and economics and executive assistant to the president, received the ISU Foundation's Order of the Knoll Faculty and Staff Award in 2010 for their long-term professional leadership, volunteer service and philanthropy.

COLLEGE OF VETERINARY MEDICINE COMMENCEMENT SPEAKER

Nicholas J. Trout MA, VetMB, Diplomate ACVS, ECVS

Dr. Nicholas Trout received his MA and Vet MB from the University of Cambridge, England, is a member of the Royal College of

Veterinary Surgeons, and a Diplomate of the European College of Veterinary Surgeons. He was a University of Liverpool, England, House Officer from 1989-1991, and then a resident in Small Animal Surgery from 1991-1994 at Tufts University School of Veterinary Medicine

and Angell Animal Medical Center-Boston. He became certified as a Diplomate in the American College of Veterinary Surgeons. He specializes in both orthopedic and soft tissue surgery at Boston's Angell Animal Medical Center. His work includes tibial plateau leveling osteotomy (TPLO), hip replacement and arthroscopic surgical procedures.

He is also an accomplished author and is considered by many to be the James Herriot of this generation. Publishers Weekly Review states "the many stories are sifted from recollections of thousands of animal encounters in his 25 years of practice," and his books "show how the daily life of a veterinarian requires the ability to be a social worker, a psychologist, a grief counselor, mentor, carpenter, plumber, cosmetologist, athletic coach, magician, grim reaper, and occasionally, guardian angel."

Dr. Trout has authored:

Ever By My Side: A Memoir of Family, Fatherhood, and the Pets with Me Through It All (2011)

Love Is the Best Medicine: What Two Dogs Taught One Veterinarian about Hope, Humility, and Everyday Miracles (2010)

Tell Me Where It Hurts: A Day of Humor, Healing, and Hope in My Life as an Animal Surgeon (2008)
- New York Times Bestseller

HONORARY DEGREE RECIPIENT, DOCTOR OF HUMANE LETTERS

George P. Belitsos

George P. Belitsos is the founder and Chief Executive Officer of Youth and Shelter Services, Inc. (YSS). Headquartered in Ames, YSS is dedicated to helping communities prepare young people for

the challenges of life by providing information services and tools to create healthier opportunities and outcomes for troubled youth.

YSS began on the campus of Iowa State University when Mr. Belitsos was a graduate student

and was volunteering for alternative service as a conscientious objector. Incorporated in 1976 as a non-profit child welfare and youth development agency and was Iowa's first emergency youth shelter, YSS has grown into a comprehensive child, youth and family service agency with 20 locations and a \$15 million annual operating budget. In 2011, more than 5,500 clients received direct services from YSS, and 38,900 received education, prevention, crisis intervention and youth development services. YSS

operates four statewide collaborations involving other child welfare agencies and more than 50 subcontractors. It is accredited through CARF International, and it has received several state and national awards.

Mr. Belitsos has been recognized for exceptional leadership, outstanding service and effective advocacy for the young people of Ames, Iowa and the nation. HONORARY DEGREE RECIPIENT, DOCTOR OF SCIENCE

Daniel Gianola

Daniel Gianola is the Sewall Wright Professor of Animal Breeding and Genetics at the University of Wisconsin, Madison. A native of Montevideo, Uruguay, he earned a bachelor's degree

in agricultural sciences from the Universidad de la Republica, Uruguay, in 1970, and M.S. and Ph.D. degrees from the University of Wisconsin-Madison in 1973 and 1975, respectively. After three years with the World Bank in Washington, D.C., he took a faculty position the University of Illinois in 1978, and returned to the University of Wisconsin-Madison in 1991.

Dr. Gianola's research involves theory and applications of quantitative genetics to animal breeding, and it has had a profound impact on the analysis of animal breeding data. He has worked with many livestock and laboratory species, and has

been credited for introducing Bayesian statistical methods to quantitative genetics. His current work involves adapting methods from artificial intelligence and machine learning to genome-enabled selection of livestock and plants, and to the prediction of diseases, such as cancer, in humans. He is the author of 250 scientific peer-reviewed publications and three books.

Dr. Gianola also has had a major international impact in the training of thousands of young researchers and post-doctoral scientists through his teaching in more than 30 developing countries. He has been an ambassador of science and of international understanding, a task facilitated by his command of five languages, three of which he speaks fluently. He has received five honorary degrees from five countries, and many major international awards, including the Alexander von Humboldt Senior Researcher Award, Chaire D'Excellence Pierre de Fermat, Hans Fischer Award, Jay Lush Award for Outstanding Research in Animal Breeding and Genetics, Rockefeller Prentice Award. UNDERGRADUATE COMMENCEMENT VOCALIST

AND

F. WENDELL MILLER DISTINGUISHED ARTIST IN RESIDENCE

Simon Estes

Simon Estes is an internationally acclaimed bass-baritone who has performed in the world's major opera houses and in special performances for U.S. presidents and international dignitaries such as Boris Yeltsin, Yassar Arafat, Yitzhak Rabin, Nelson Mandela, and Archbishop Desmond Tutu. Since 2000, he has been a faculty member at Iowa State University, serving as the F Wendell Miller Distinguished Artist-in-

Residence with the Department of Music, sharing his incredible talents and musical knowledge with students and at numerous activities and events.

Estes rose from humble beginnings in Centerville, Iowa, the son of a coal miner and grandson of a slave, to become one of the world's most accomplished opera singers, paving the way for other African Americans in the classical world. He transferred from Centerville Junior College to the University of Iowa in 1957 and was there until he was accepted in the Julliard School of Music in 1963. Estes has honorary doctorates from numerous colleges and universities, including one from Iowa State University.

In 1965 Estes made his operatic debut in *Aida* at the Deutsche Opera in Berlin. Among his more than 100 lead operatic roles have been the title role in *The Flying Dutchman* at Bayreuth, being the first male African American to sing a major role on stage there; the role of Porgy in the Metropolitan Opera's first production of Gershwin's *Porgy and Bess*; and the role of Amonasro in *Aida* with Leontyne Price as *Aida* in her "farewell performance" at the Met.

Estes is also internationally known for his humanitarian efforts for children. He established the Simon Estes Educational Foundation, which has awarded more than three million dollars in merit-based college scholarships, and the Simon Estes International Foundation for Children, which provides support for children's health and educational needs. In 2006, he led a group of six Iowa State music faculty members to South Africa to bring music instruction to the students of the Estes school in the Cape Town area. He has performed numerous benefit concerts to help combat HIV/AIDS and eliminate malaria in Africa.

Estes has taught at the Julliard School of Music, Harvard University, Boston University, and currently is a professor at Iowa State University and at Wartburg College. Among his many awards are the Distinguished Iowa Citizen Award, the Iowan Award, and the prestigious Alumni Award of Iowa State University.

IOWA STATE UNIVERSITY SENIOR CLASS COUNCIL

The mission of the Senior Class Council (SCC), a committee of the Student Alumni Leadership Council (SALC), is to benefit and unite seniors through events and services while promoting an understanding of the Iowa State University Alumni Association. The 2011-2012 Senior Class Council is comprised of nine students who are dedicated to recognizing seniors for their many achievements.

This year's Senior Class Council has planned a number of programs for seniors including both Fall and Spring Senior Weeks, where seniors enjoy special tours and free food on campus; the Senior Package, a gift set that included commemorative Iowa State items; Grad Breakfast, a chance for seniors to relax and enjoy a meal served by ISU faculty and staff; and the Senior

Send-off, a year-end event for seniors at the ISU Alumni Center to celebrate seniors' transitions to being alumni! The events that SCC plans and co-sponsors are intended to be both beneficial and enjoyable for seniors.

Finally, Senior Class Council always invites you and your families to return to the Iowa State Alumni Center following the Commencement Ceremony today as you are all now Alumni of Iowa State University!

For more information on SCC and SALC programs, please visit www.isusalc.org.
